Subgroup Analyses:

Commentary:

Most year 8 students had little difficulty with this task, but certain questions were hard for the year 4 students. In particular, year 4 students had trouble when asked to use the information to answer a question as opposed to simply looking something up. There was a slight decline in performance by year 8 students between 2003 and 2007. Year 8 Pasifika students had a particularly wide spread of performance.
