1999 ('95)
year 4

created columns of stickers 96(85)

placed correct number of stickers 93(84)

numbered Y axis 11(15)

Commentary:

Year 4 students performed substantially better on the first two marking criteria in 1999 than in 1995. However the percentage putting value labels in the Y axis declined a little, to a very low level.
