Commentary:

Questions 1, 2, 6, 9 and 10 are the questions that would give the most useful information about what the Prime Minister does in her job. Results indicate that students may have chosen questions on the basis of what they were interested in (eg. what the Prime Minister had done prior to becoming Prime Minister, who she thought was the best rugby team, or which was her favourite country for travel). This shows a need for greater focus on what the task requires the students to do.
