

## NEMP Technology Survey 2000

**Instructions:** Put a ring around the answer you want to choose **or** write your answer on the line.

The teacher can write the  answers for you.

1. What sort of things does your class do when you are doing technology at school?

---

---

2. What do you think technology is?

---

---

3. How much do you like doing technology at school?

Why do you say that?

---

4. How good do you think you are at technology compared to other subjects?

5. What are three things a person needs to be able to do to be really good at technology?

---

---

Not to be copied

6. What sort of technology things do you do in your own time – when you are not at school?

---

---

### Now thinking about computers:

7. How often do you use a computer at school?
- |                  |                                  |                                  |                    |
|------------------|----------------------------------|----------------------------------|--------------------|
| <b>most days</b> | <b>more than<br/>once a week</b> | <b>less than<br/>once a week</b> | <b>hardly ever</b> |
|------------------|----------------------------------|----------------------------------|--------------------|
8. What sort of things do you do when you are using the computer at school?

---

---

9. How often do you use a computer when not at school?
- |                  |                                  |                                  |                    |
|------------------|----------------------------------|----------------------------------|--------------------|
| <b>most days</b> | <b>more than<br/>once a week</b> | <b>less than<br/>once a week</b> | <b>hardly ever</b> |
|------------------|----------------------------------|----------------------------------|--------------------|

10. What sort of things do you do when you are using the computer when not at school?

---

---
