	brown card in place at back	94
	picture is centred	93
	green card used as frame, not backing	64
<b>FRAME:</b>	cut as per diagram	38
	errors in width of frame on 1 or 2 sides	6
	frame irregular, haphazard	23
	missing side or no hole cut	33
<b>ASSEMBLY OF PICTURE:</b>	held together as shown	77
	held together in some other way	21
	not held together	2
<b>BASE:</b>	appropriate V shape	92
	both sides 20cm ± 1cm	41
	side linked as shown	91
	slits cut 5-7cm from ends	33
	slits cut to appropriate angle	69

**Questions/instructions:**

In this activity you are going to make a photo frame and stand. You will have an instruction card, a plan and some equipment for making the frame and stand.

Give each student an instruction card, a plan, a set of equipment and a ruler.

Before you start, look at the instruction card as I read it through to you.

PICTURE STAND
You have a plan and some equipment to make a picture frame and stand.
Make a picture stand exactly as it is shown in the plan. You will need to cut some of the card.
Put the picture in the stand when you have finished.

Read instruction card to students.

When you have finished, give your photo frame and stand to me.

**Commentary:**

This task was very similar to the year 4 task *Picture Stand*, but the picture assembly was more complicated. As at year 4 level, a substantial proportion of students were not very precise in cutting the frame or the base.
